The Cincinnati Enquirer vs. Medacy-The Bill of Indictment-The Answer.

We copy the following article from the Cincinnati Enquirer, of Sunday last. It is a most extraordinary expose, and cannot full to create intense excitement in the Locofoco party. We have heard vague rumors of scenes, that are here described, with such graphic power. The bold charges are now made by influential and responsible men, high in the confidence of the Locofoco party. It is no Whig affair, and cannot be sneered or laughed off, as a mere party trick. All the parties are Locofocos. The disgraceful scene at Washington was witnessed alone by Locofocos. They now make the expose, and it must be met! ALLEN is, no doubt, at the bottom of it. The war between the white and red roses, the ALLEN and the MEDARY factions, is now declared. "Cutting throats" is to be the order of the day! Our duty is, to stand one side, to keep the public posted as to the movements, and very devontly and humbly hope that the fate of the Kilkenny cats may be theirs in this very interesting con-

statesmen would get tired of hearing themsome. If they would vary the tune, or enliven their discources by something new, it would with the eighth part of a new idea, or refresh us with a speculation that has not been worn utterly threadbare, we would rejoice and take courage. But this eternal iteration and reiteration of the same old song sets one's teeth on edge. We had as lief listen to the filing to oblige us us! In the ordinary course of nature it will be long before we shall get rid of the existing crop. Unless we can have the aid of the cholera or some other agent of The Senate Galleries were througed in translation, our case is folorn and well night expectation of Soule's speech. We look again, and find they have come like shadows, and so depart. They have all dissolved into thin air. The Manifest Destiny men have become mere The House took up Private Bills, discussed wreaths of smoke to the imagination. And so they are in fact.

One of these gentlemen spoke in the Senate on Tuesday. It was Gen. Lewis Cass. He canted, descanted and incanted, and his cantations brought up the same old figures. We had the same spectre of "inevitable war" that the old gentleman used to frighten the women with during the Oregon controversy. But then the General was younger and the "inevitable" of that day had a more distinct outline and wore a fiercer aspect than now. The General shook in his shoes and was then plainly in earnest as he declaimed upon "Inevitable War with England" as the sure result of the Oregon boundary question. Now he is less in earnest. He is simply clinging to the skirts of an idea that once possessed him thoroughly. He is making feeble & awkward long ago. The old gentleman may burst his

So is his speech The General is feeble and tottering. So is of the French Government from a fugitive publication in a newspaper, containing the extravagant vagaries of moon-struck speculator like Monsieur Dupes quier du Dammartin !-Or to infer the policy of the English Government from a dashing magazine article of some hare-brained aspirant for notority? Yet upon no better or more solid ground than this, does Gen Cass gravely affirm the policy of both these Govenments in respect to their future action upon this continent, and call upon Congress for a vote of defiance!

It is said that old men are good counsellors. see what was not to be seen. He does now He said in 1848 and '9 that 'war is inevitable.' But it did not come. He sees now that England and France are conspiring to arrest the growth and pogress of this mighty and rapidly growing Republic; and that unless we forthwith order them off the continent, nobody can tell what mischief may happen. Mr. Cass was frightened, before, at nothing. He is alarmed now at less than nothing. Mr. Cass has had his day. Let him retire. We shall be rid of at least one of the Manifest Destiny statesmen, a leading characteristic of all of whom is that they love to dwell upon the vague & uncertain things of the future, rather than devote themselves to the discharge of the vital, practical duties of to-day .- N. Ton Conwin .- The Boston Bee this speaks of this Statesman:

"Tom is one of the best of men, and as able as good. Still there are not wanting men, and the more especially at Washington. who improve every opportunity to malign and befoul him. All who know Tom are well aware that he is one of nature's noblemen, and one that stands up in pround and chivalrous manhood."

The New York Tribune thus remarks:

"Any man who is malicious and malevolent enough to assail Tom Corwin, and charge him with corruption or dishonesty, ought to have his mouth sewed up. The Secretary is human, and therefore has his faults; but a man of nobler nature, or one more quick to recognize or more prompt to spurn every suggestion of dishonesty, don't live. He has fairly earned and richly deserves the sobriquet votes for President on Wednesday next, were of 'glorious Tom Corwin.' May be live a thousand years!"
